DOG WASTE — Tidy Tails

4-5

Customers

25-30

Goal (Aug '25)

~21

Gap

3

Google Reviews

⚠️ **Goal is OVERDUE** — August 2025 target passed 7 months ago. We're at 4-5 customers vs. 25-30 target. Execution on marketing assets is the bottleneck — tools are built, action is needed.

Priority Tasks Today

- **SSL Certificate** — Still expired since Feb 19 (33 days!). Every day this stays broken = invisible online. 15-min fix in GoDaddy. **CRITICAL**
- **Facebook Ad Quick Wins** — Yesterday's optimization kit identified 3 changes (10 min total): Switch CTA to Message, turn off Audience Network, turn off Messenger placements. Could cut cost/lead from \$12→\$4-6.
- **Tuesday Action Sheet** — Built yesterday. 5 ranked actions: GBP completion (30min), review requests (5min), FB ad tweaks (10min), FB group posts (15min), dead competitor capture (20min).
- **Nextdoor** — STILL not claimed. 20 min, \$0. Poop2Scoop has 3 recs there, we have 0.

Pipeline

- **61 commercial leads** identified (Tier 1: Millsap Properties with 7 apartment communities = top target)
- **Commercial Outreach Kit** built yesterday — tap-to-call, scripts by type, objection handlers, tracker
- **Dead competitors:** 4-5 confirmed dead = 50-100+ orphaned customers available
- **Dog Doody Defenders** DNS gone — Florissant turf, 15-30 orphaned customers

What Franklin Built Overnight

-  Sales Scorecard Dashboard — daily activity tracker with points, streaks, milestones
-  Facebook Ad Optimization Kit — data-driven from TJ's actual analytics screenshots
-  April 2026 Marketing Calendar — 30-day interactive plan, all copy ready
-  Commercial Outreach Kit — 61 leads → phone call pipeline with scripts
-  Tuesday Action Sheet — 5 prioritized actions for today

SHEDS — TuffShed / WoodMaster

Current TuffShed Promos

No active cash-off promotions. Current offers are financing-only:

- **Service Finance:** 9.99% APR for 120 months (credit check, 10% down)
- **Service Finance:** 0% interest if paid in full within 6 months
- **RTO National:** 9.99% APR up to 60 months (renters OK, 10% down)
- **RTO National Flex Lease:** No credit check, select models, low deposit

Sales Angle

- **Tariff urgency still valid** — 35% duty on lumber, price increases coming. "Lock in today's price."
- **Spring cleaning / organization season** — Natural demand uptick
- **Financing lead:** "No credit check" RTO option is the hook for price-sensitive buyers

Pipeline Status

- CRM live at dashboard/crm/
- Payment calculator live for backyardbuildingsstl.com
- Email automation via darius@backyardbuildingsstl.com operational
-  backyardbuildingsstl.com HTTPS needs enforcement

SYSTEMS

Dashboard

-  Dashboard operational — 48+ HTML files, 61+ PDFs, 0 broken links
-  Git synced and clean
-  New tools added: Sales Scorecard, FB Ad Optimizer, April Calendar, Commercial Outreach Kit, Tuesday Action Sheet

OpenClaw

-  Updated overnight: 2026.3.13 → **2026.3.23-2** (latest)
-  Gateway restart may be needed per overnight update notes
-  All 4 known CVEs patched

Cron Jobs

-  9/10 crons healthy
-  EOD cron — v6 fix applied, tonight is the real test
-  Brave Search API quota exhausted (2001/2000) — blocks all research tasks until ~April 1

 **ACTION: Upgrade Brave Search API** — \$5/month gets 5,000 queries (vs. 2,000 free). We've been hitting the wall regularly. This blocks security scans, competitor research, and market intel.

NEWS & IDEAS

Today's Insight

Facebook Ad Optimization — Your Data Speaks

Based on TJ's own analytics shared last night: Ad #2 "Quick Math" has a killer 47% hook rate but at 41 seconds, only 2.4% finish watching. Ad #1 is just 15 seconds but has a weaker 32% hook. **The winning formula:** Ad #2's hook concept in Ad #1's short format. 5 new ad concepts written and ready. Three 10-minute fixes could cut cost per lead from \$12.06 → \$4-6 range.

Source: TJ's actual Facebook Ad Manager data (Mar 23)

Business Ideas

1. Spring Cleanup Bundle Service

Combine pet waste removal with basic yard cleanup (leaf blowing, debris removal) as a one-time spring service. Charge \$75-150 per visit. Target the 50-100+ orphaned customers from dead competitors who haven't found a replacement service. Low overhead — you already

have the truck, the route knowledge, and the hustle. One weekend blitz could net \$500-1000 and convert 5-10 into recurring customers.

2. Property Manager Waste Audit Service

Offer FREE 30-minute "waste audits" to apartment complexes — walk the grounds, document problem areas with photos, present a professional report showing the cost of not cleaning (fines, tenant complaints, turnover). This is the foot-in-the-door play for Millsap Properties and other commercial targets. Professional audit → quote → contract. The audit costs you 30 min; the contracts are worth \$200-500/month each.

Tasks Franklin Could Handle

1. **Property Manager Audit Template** — Build a professional PDF template for on-site waste audits that TJ can fill in on his phone. Makes the free audit pitch feel corporate and legitimate.
2. **Google Business Profile Post Scheduler** — We have 4 weeks of GBP posts written but nobody's posting them. I can build a reminder system that pings TJ with the exact post to copy-paste each week.
3. **Competitor Dead Zone Monitor** — Set up automated checks on Poopy Paws, Super Scoopers, Dog Doody Defenders, and DoodyCalls to catch the moment they go fully dark (website down, GBP unlisted, Yelp closed). First to know = first to capture.
4. **April Marketing Auto-Pilot** — The April calendar is built. I can create daily Telegram reminders with the exact action + copy-paste content for each day, so TJ just executes instead of planning.

AI & SECURITY SCAN

Check	Status
OpenClaw Version	✅ 2026.3.23-2 (latest)
Known CVEs	✅ All 4 patched
Overnight Update	✅ Applied (2026.3.13→2026.3.23-2)
Web Security Scans	⚠️ SKIPPED — Brave API quota exhausted
Last Full Scan	March 22 — All clear

Risk Level: LOW — Running latest version, all CVEs patched. Only gap is inability to scan for new threats due to search API quota. Upgrade to paid Brave plan (\$5/mo) recommended.
