Day 26

Domain Age

DOG WASTE — Tidy Tails

✓ Completed Today

- **Facebook Ads Launch Kit** — Complete copy-paste campaign: 4 ad variations in TJ's voice, Meta Ads Manager setup guide, instant lead form, \$5/day budget plan, lead follow-up scripts. Expected: 3-6 new customers/month at \$150/mo spend.
- **Paid Ads Playbook** — Full strategy for Google Ads, FB Ads, LSAs, and Nextdoor. 3 channels, 4 budget phases (\$0→\$1K/mo), 9 ad variations, ROI projections. \$500/mo → 10 new customers/month.
- **Dead Competitor Capture Campaign** — 5 dead competitors verified (Poopy Paws UPGRADED to dead). 50-100+ orphaned customers identified. 3 FB post templates, 3 target zones, text scripts. Expected: 3-12 new customers, \$0 cost.
- **3 Dead Competitor Territory SEO Pages** — South County, South City, Wentzville now live. "Switching provider?" alert boxes targeting orphaned customers. Total city pages: 18 → 21. All cross-linked.
- **Pet Waste Station Services Playbook** — New revenue stream: station installation (\$450-750) + monthly servicing (\$35-100/station). 8 new commercial leads found. 5 clients = \$1,500-3,000/mo recurring.
- **Operations Toolkit** — Sweep&Go CRM (\$14.50/mo promo), aPaws membership (\$85/yr), industry benchmarks (\$96/hr top operators vs TJ's \$45/hr), free webinar resources.
- **Pricing Strategy** — New tiered pricing: 1 dog \$88/mo, 2 dogs \$108/mo, 3 dogs \$128/mo. Revenue impact: +\$5,700/yr at 25 customers vs current \$70/mo flat rate.
- **Competitive Recon (3 sweeps)** — Discovered Clean Turf STL (HIGH threat, same territory), Yuckos (36-year veteran), Little Stinkers of MO, Dirty Dog Wash Poo Crew. Total tracked: 21+ competitors.
- **Scoop Soldiers Alert** — National franchise officially launched in STL (Feb 6). \$15/visit, 1300+ reviews. TJ now most expensive option in market at \$25/week.

COMPETITIVE PRESSURE: Scoop Soldiers (\$15/visit national franchise) launched in STL + Clean Turf STL operating in TJ's EXACT territory (Ballwin, Manchester, Ellisville). Window for establishing local dominance is shrinking fast.

Google Indexing — Root Cause Found

- **Deep Technical Audit** — Domain registered Feb 16, 2026 (only 26 days old, NOT "6+ months"). Technical SEO is flawless. Real problem: ZERO backlinks. 4-12 weeks normal for new domain.
- **SEO Emergency Audit** — No Google Search Console verification found. No directory listings. 5+ other "Tidy Tails" companies create brand collision.

 **KEY FINDING:** The site isn't broken — it's brand new with zero authority. 15 minutes setting up Google Search Console is worth more than 70+ deliverables. Backlinks + directory listings = the fix.

SHEDS — Redd's Shed Redemption

Completed Today

- **Late March Ad Campaign** — 6 new Facebook Marketplace ads (March Madness, Spring Equinox, Tariff Bomb, Tax Refund, Garage Intervention, Spring Projects) + 3 Instagram captions for @reddshedredemption. Full posting schedule March 17-23.
- **Competitor Intel Update** — NO active TuffShed promo (Three for Free expired Mar 4). New Commerce Dept tariff review opened March 9. Current duty: 35.19%, could go higher. New competitor: Cardinal Portable Sheds (Amish-built, Southern IL).
- **"Why No Sale?" Talk Track** — Script for handling "are there any promotions?" objection. Today's price IS the deal because base prices are rising with tariffs.

 **SELLING ANGLE:** No TuffShed promo = sell on URGENCY. Commerce Dept tariff review (March 9) + 35.19% combined duty = "today's price is tomorrow's discount." STL avg shed price trending up to \$6,897.

SYSTEMS & OPERATIONS

Completed Today

- **Memory Maintenance** — Archived 1,642-line task log to archive. MEMORY.md updated with strategic insights. Clean workspace for new day.
- **Overnight Security Update** — OpenClaw upgraded 2026.3.12 → 2026.3.13. All 6 recent CVEs patched. ClawJacked vulnerability patched. Gateway restart still pending.
- **Morning Briefing** — Generated, PDF'd, and emailed at 8:30 AM.
- **Search Visibility Audit** — Confirmed TJ still invisible in Google search. Even branded searches return

other "Tidy Tails" companies.

Current Status

- **Recurring Customers:** 8 (~\$750/mo revenue)
- **Target:** 25-30 by August 2025
- **Website:** 21 city pages  | 9 blog posts 
- **Google Indexing:** 0 pages (Day 26 — root cause identified) 
- **Deliverables Created:** 70+ and counting
- **Dashboard:** Live 
- **OpenClaw:** v2026.3.13  (gateway restart pending)

TOMORROW'S PRIORITIES

Sunday Action Items

-  **#1: Google Search Console Setup** (15 min) — THE single highest-impact action. Submit sitemap, request indexing on 5 priority URLs. This is why the site is invisible.
-  **#2: Google Business Profile** (20 min) — Unlocks Maps, Local Pack, review collection, and ad eligibility. Clean Turf STL already has directory presence. TJ doesn't.
-  **#3: Directory Blitz** (45 min) — Yelp, Facebook Business, Nextdoor, Thumbtack, Bing Places. Creates backlinks Google needs to see.
-  **#4: Dead Competitor Capture Posts** (20 min) — Post in 3 FB groups targeting Poopy Paws and Super Scoopers' orphaned customers. Scripts are ready.
-  **#5: Review Requests** (10 min) — Text 5 existing customers. Templates ready. 5 reviews = instant credibility vs competitors.
-  **#6: Post Shed Ads** — March Madness ad ready for Monday AM. Spring Equinox for Thursday.

 **REAL TALK:** 16 tasks completed today. 70+ deliverables total. We've built more strategy material than companies 10x our size. The bottleneck is, and has been, execution. The plans are ready. The scripts are ready. The copy is ready. 2 hours of action tomorrow > 20 more hours of planning. Let's go.
