NEWS & IDEAS

MARKET INTELLIGENCE (NO API TODAY — FROM CONTEXT)

April 2026 Tariff Situation — Steel & Lumber

New tariffs on imported lumber and steel effective early April 2026. Direct impact: outdoor structure pricing (sheds, fencing, decking) is expected to rise 8–18% for orders placed after April 2. TJ can legitimately tell shed buyers "pre-tariff inventory" — it's real, it's timely, and it closes fence-sitters.

BUSINESS IDEAS

IDEA #1

"Paw-ty in a Box" — Event Kit Licensing

Once you've run 5-6 Paw-ty events and proven the playbook, package and sell the "pet service vendor at adoption events" playbook to non-competing markets. A groomers or pet supply shop in Kansas City, Indianapolis, or Columbus could buy your exact scripts, materials, and methodology as a digital kit for \$97-197. Zero extra work — just documenting what you already do. Franklin has already built everything needed for the kit.

IDEA #2

"Backyard Staging" — Pre-Listing Clean-Up for Real Estate

Pitch directly to realtors: 30-min pet waste removal + yard clean-up for \$75 flat before listing photos. Every pet owner selling a home needs this. Realtors have 50-100 clients per year and would gladly recommend you (they look better). Partner with 3-4 realtors in West County → automatic referral stream. Realtors close fast because they're solving a client problem, not selling them something new.

TASKS FRANKLIN COULD TACKLE

1

Realtor Partnership Kit

Build a one-page pitch deck for realtors: pre-listing yard clean-up, why it helps them close faster, partner pricing. Could be a second acquisition channel that costs \$0.

2

Post-Paw-ty Analytics Dashboard

After today's event, build a quick-fill "Event ROI Calculator" — leads captured, converts, revenue, cost. Tracks event performance across all future events so TJ can decide which ones are worth repeating.

3

Arch Bark Vendor Registration Reminder

Arch Bark is April 18 — only 21 days away. Need to confirm TJ is registered as a vendor. If not, set up a cron reminder for Monday morning to check and register. Missing the registration window would waste all prep work.

4

Bark in the Park Vendor Registration

Bark in the Park (May 16 — 1,000-5,000 dog owners, Tower Grove Park) — vendor registration via HSMO.org may be open NOW. Missing this window could cost us the biggest single-day acquisition opportunity of 2026. Need TJ to check this week.

**TJ'S MINDSET FOR TODAY**

"You're not selling a service. You're solving a problem they didn't know had a solution."

Most dog owners at this event have never thought about hiring someone to scoop their yard. Your job isn't to overcome objections — it's to introduce a concept they'll immediately love once they hear the price.

**Lead with the dog's name, not the service**

"Cute dog — what's their name?" opens a conversation. "We do dog waste removal" opens a pitch. One lands, one doesn't.

**The "\$2.30/day" reframe is your best weapon**

\$70/month sounds like something. \$2.30/day sounds like nothing. Less than a daily Starbucks. Use it every time someone hesitates on price.

**Every "maybe" is worth following up on Sunday**

Adoption events are emotional — people are already feeling good, already thinking about their pets. The vibe is in your favor. A warm "maybe" today is a "yes" on Sunday with the right text.

Enjoy it. The energy is contagious.

You're at a dog adoption event. It's literally the most feel-good environment possible to sell a pet service. Relax, have fun, talk to people like a neighbor — the business part follows naturally.
