STL Competitors Found

DOG WASTE — Tidy Tails

Completed Today

- **SEO Emergency Diagnosis** — Full technical audit. Site is perfect technically. Root cause: 23-day-old domain, ZERO backlinks, ZERO directory listings, no Google Business Profile.
- **Competitive Intel Report** — All 12+ STL competitors profiled. TJ's \$70/mo flat rate is the best multi-dog value. Dog Doody Defenders (Florissant) at \$68/mo is closest competitor.
- **Spring Campaign Package** — 5 social posts for Mar 11-16. \$79 deep clean promo + free cleanup with weekly signup.
- **Spring Social Blitz** — 8 additional posts using real STL weather (55-62° Thu-Sat). Hooks: thaw, daylight saving, BBQ season, rain urgency.
- **Referral Program Kit** — Text templates, social posts, door hanger designs, tracking sheet. \$25 off for referrer, free cleanup for new customer.
- **Nextdoor Playbook** — Full marketing strategy for untapped channel. 77% homeowner audience. Free tier is powerful.
- **Directory Listing Package** — 12-platform submission guide with pre-written copy in 3 lengths. Direct URLs. 45 min total.
- **Growth Tracker** — Weekly path from 8→25 customers. ~1 new customer/week needed through August.
- **Facebook Groups Target List** — 5 high-priority STL group categories with engagement-first strategy.
- **Paid Ads ROI Analysis** — \$150/mo on FB ads = 2-4 new customers/month (1,000%+ ROI). Quick-start: \$35 for one test week.

#1 BLOCKER: Google Business Profile still doesn't exist. Every single competitor has one. This is a 30-minute task that unlocks ALL organic discovery. Nothing else matters until this is done.

SHEDS — TuffShed / WoodMaster

Completed Today

- **Pipeline Follow-Up Sequence** — 4-touch text sequence for 27 existing leads (12 quoted + 15 pre-quote). Objection handlers included. Converting 2-3 = \$10K-\$24K revenue.
- **Competitive Intel Scan** — Lumber tariffs at 35% (highest in years). Commerce Dept review opened Mar 9. TuffShed 10x12 pricing \$5,500-\$6,100. No active cash promo (last one expired Feb 11).
- **3 New Shed Ads** — "Hump Day" ad, "Your Stuff Deserves a Home" ad, "\$4.93/Day" ad. All scheduled for today.

💰 **Opportunity:** Lumber prices up from \$598→\$629 since January. Real urgency talking point for follow-ups. Next TuffShed promo likely Memorial Day.

SYSTEMS & OPS

Completed Today

- **Memory Maintenance** — Archived March 10 task log (812 lines, 24 tasks). MEMORY.md updated. Clean start for the day.
- **Duplicate Detection** — Caught and skipped 2 redundant deliverables (same SEO guide created 3x). Self-corrected to stop building, start organizing.
- **Weekly Execution Playbook** — Distilled all 16 deliverables into daily 3-action checklists for Thu-Mon. Max 2.5 hours total. Anti-overwhelm format.
- **Overnight Security Check** — OpenClaw 2026.3.8 fully patched. 4 CVEs reviewed, all pre-patched.

🎯 TOMORROW'S PRIORITIES (Thursday, March 12)

For TJ (from the Weekly Playbook)

- **#1: Set up Google Business Profile** — 30 minutes. Opens: deliverables/get-listed-30-minutes.md. This is the single highest-impact action available.
- **#2: Create Yelp Business Page** — 15 minutes. Pre-written description ready in directory listing package.
- **#3: Post first social media content** — 5 minutes. Copy-paste from spring-social-blitz-march11.md.

For Franklin (Self-Directed)

- Monitor if any deliverables get executed — adjust strategy if needed
- Check for new leads or customer inquiries
- Prep Friday's referral text templates (ready for TJ to send)
- Continue shed pipeline monitoring (TuffShed promo watch)

📁 **Key Insight:** Today was about building the arsenal. Tomorrow is about TJ pulling the trigger. The information gap is closed — it's 100% an execution gap now.
