TO GOAL

Weekend Priority Tasks (TJ)

Print & door-hang spring flyers — PDF ready. Target 50-100 doors in Florissant/O'Fallon clusters. ~\$20 cost, 2-3 hours. **HIGH ROI**

Text 3 customers for Google reviews — GBP has 0 reviews. Need 5+ to rank in local pack. Shannon, Amanda, and Jody are best candidates (weekly/biweekly = most engaged).

Post spring content to FB groups — Friday/weekend posts ready on dashboard. 3 minutes to copy-paste.

Send winter reheat texts — Jamie's scripts are in the Outreach Hub. Target any dormant customers.

Pipeline & Competitive Intel

- **NEW competitor:** Doggie Doodies — West County + St. Charles overlap, \$72/mo. Professional setup but we're \$2/mo cheaper.
- **TJ's edge:** Only \$70/month plan in market. Personal service. Local owner.
- **Gap to goal:** 17 more customers needed → \$1,750/mo additional revenue
- **Spring is NOW:** DoodyCalls SW Chicago booked up. National franchises running spring campaigns. This is peak acquisition season.

 Waiting On

- **Google indexing** — Submitted Mar 5, 0 pages indexed. Expected 3-7 days. (Day 2)
- **fal.ai credits** — Exhausted. Need top-up for remaining 4 video ads.

 SHEDS — TuffShed / WoodMaster

Current TuffShed Promos

- **Service Finance:** As low as 9.99% APR for 120 months OR 0% interest if paid in 6 months
- **RTO National:** Variable APR as low as 9.99% up to 60 months
- **RTO Flex Lease:** No credit check, low deposit, buildings up to \$20K

No new seasonal promos detected — financing options are the current push. Good talking points for fence-sitters.

Action Items

- Fenton shed leads follow-up** — Due Sunday Mar 9. Get emails prepped.
- HTTPS for backyardbuildingsstl.com** — Still pending. Affects trust/SEO.
- Shed CRM** — OCR batch upload feature now live. Use it for new FB Marketplace leads.

 SYSTEMS

Status Overview

SYSTEM	STATUS	NOTES
Main Dashboard	LIVE	index.html rebuilt last night
Tidy Tails CRM	LIVE	8 customers loaded, route scheduler active
Shed Sales CRM	LIVE	OCR batch upload added
Jamie Outreach Hub	LIVE	13 scripts, 43 leads
Website (tidytailsstl.com)	LIVE	Waiting on Google indexing

Chief Oversight

RUNNING

Every 2 hours

 Issues to Fix Today**10 broken video links in index.html** — Remotion filenames don't match actual files.

CRITICAL

crm/index.html & Jamie hub links broken on deployed site — Path issues.

CRITICAL

Competitor intel link has wrong path prefix — Uses `dashboard/` prefix incorrectly.

HIGH

7 stale docs need archiving — >30 days old. MEDIUM **NEWS & IDEAS** **Today's Story****Counties Partnering with Pet Waste Services for Environmental Outreach**

Clark County, WA is partnering with local pet waste removal services to distribute educational materials about pet waste impact on water quality. Government agencies are actively seeking local scoopers as partners — not competitors.

Why it matters: St. Louis County has similar stormwater/runoff programs. TJ could approach the county environmental office about a partnership — free marketing, instant credibility, and a pipeline of referrals from the government itself.

Source: The Columbian (Mar 4, 2026)

 Business Ideas**1. Spring Cleanup Day — Premium One-Time Service**

Offer a "\$99 Spring Yard Reset" — a one-time deep clean for yards that piled up over winter. Holy Crap Poop Scoop in Monroe charges \$85/mo recurring, but their spring cleanups are their #1 lead generator. Advertise on Nextdoor and FB Marketplace. Convert 30% of one-timers to recurring customers. At 20 spring cleanups = \$2K cash + 6 new recurring customers.

2. Pet Waste Station Installation for HOAs/Parks

Sell + install pet waste stations (bag dispensers + trash cans) to apartment complexes and HOAs for \$150-300 per unit, then offer ongoing servicing contracts (\$50-100/mo per station). Low upfront cost (~\$60 wholesale per station), high margin, and creates recurring revenue. Jamie's commercial leads list already has 43 targets.

Tasks Franklin Could Handle Today

1. Fix all broken dashboard links — Chief flagged 10 video links + 2 page links. I can repair all of them and push a clean deploy.

2. Build a spring cleanup landing page — If TJ likes the Spring Yard Reset idea, I can have a booking page live within the hour.

3. Draft county environmental partnership pitch — Research St. Louis County stormwater programs and write a professional outreach email to propose a pet waste education partnership.

4. Create a pre-commit link checker — Chief recommended a git hook to prevent broken links from deploying. I can build it in 20 lines of shell script.

AI & SECURITY SCAN

VERSION CURRENT

8

CVES PATCHED

0

OPEN THREATS

Summary

OpenClaw v2026.3.2 — latest version, all 8+ CVEs from this week are patched (ClawJacked WebSocket hijack, PATH command hijacking, browser upload path traversal).

Industry News This Week

- **ClawJacked got mainstream press** (Hacker News, Mar 2) — our version is patched, but shows OpenClaw is getting serious security researcher attention
- **PerplexedBrowser exploit** (Mar 4) — Perplexity's Comet browser hijacked via calendar invite. Different product, but validates keeping AI browser automation inputs sanitized
- **53% of companies** now use agentic AI pipelines with expanding injection surfaces (Help Net Security, Mar 3)

Assessment: ALL CLEAR — NO ACTION REQUIRED
