

Shed Phone Scripts — April 2026

TuffShed / WoodMaster STL | Darius 636-354-7406 | 5520 Westwood Dr, St. Charles | @reddshedredemption

Current Urgency: Lumber + steel tariffs went up April 1st. Inventory on the lot was ordered pre-tariff = today's price is lower than what's coming. This is your real, honest closer — use it on every call.

SCRIPT 1 — COLD / UNTOUCHED LEAD

OPENING

"Hey [Name], this is Darius over at TuffShed out in Saint Charles — hope I'm not catching you at a bad time. Do you have about 60 seconds?"

(If busy: ask for a better time. If yes: continue.)

REASON FOR THE CALL

"I'm reaching out because I have outdoor storage buildings on the lot right now and I wanted to get in front of people in the area before prices go up even more. Lumber and steel tariffs just went up April 1st — so what I have in stock is at the **old pricing**. Once it's gone, the next order comes in at the higher cost.

I'm not trying to pressure you — I just know this is the time of year when people start thinking about storage, garages, workshops... and I'd hate for someone to wait until May and end up paying more for the exact same building."

QUALIFYING QUESTION

"Quick question — do you have any outdoor storage right now, or is that something you've been thinking about?"

(Not interested: "Totally fine, I'll let you go. Feel free to reach out anytime — 636-354-7406." | Interested: continue below.)

IF THEY'RE INTERESTED

"Perfect. We've got 23 buildings on the lot right now — everything from small garden sheds starting around \$3,500 all the way up to full garages with lofts. Free delivery and setup on everything.

On financing: as low as 9.99% if you want to finance it out, a no-interest option if paid in full within 6 months, and a **rent-to-own program with zero credit check** — starts around \$139 a month.

Would it be worth coming by the lot to take a look? Takes 15 minutes, zero pressure — I just want you to see them in person."

CLOSE

"What does your schedule look like this week or this weekend? I'm out here every day."

SCRIPT 2 — WARM / QUOTED LEAD (Already Talked To)

OPENING

"Hey [Name]! It's Darius over at TuffShed — how's it going? I know we talked [a while back / last week] about getting you set up with [the 10x12 / that Premier Series / whatever they looked at]. Just wanted to circle back real quick."

THE URGENCY HOOK

"Here's why I'm calling now specifically — lumber and steel tariffs went up on April 1st. The buildings on the lot were ordered before that hit, so they're still at the **old pricing**. Once those sell, the next order comes in higher. I don't know exactly how long the lot inventory lasts — could be a few weeks, could be less — but I didn't want you to miss the window if you were still thinking about it."

RESTATE FINANCING

"Nothing's changed on financing — still got the no-interest option if paid off in 6 months, fixed rates as low as 9.99%, and the no-credit-check rent-to-own. So there's really a path for everyone."

SOFT REQUALIFY

"Is storage space still something that's on your radar, or has the situation changed since we last talked?"

(Yes/curious: move to close. Hesitant: use objection handlers below.)

CLOSE

"The best thing I can do is get you back out to the lot so you can walk through the one you were looking at. I can pull up your quote while you're here and we can go over the payment options together. What day works for you this week?"

● OBJECTION HANDLERS

"I need to think about it / not ready yet"

"Totally understand — no rush at all. I just want to make sure you know the pre-tariff pricing on the lot is a limited window. If you want, I can hold your quote at the current number for this week so if you decide to move forward, you've got that locked in. Sound fair?"

"It's too expensive"

"I hear you. That's actually why rent-to-own makes sense for a lot of people — no credit check, around \$139–\$280 a month depending on the size, and you own it outright after 36 months. No big upfront hit. Want me to run those numbers on what you were looking at?"

"I'll wait until later in the year"

"I'd normally say that's totally fine — but with tariffs going up April 1st, waiting means paying more for the same building. I've had people call back a couple months later and the price had gone up. I'm not saying that to scare you — just being straight with you because I'd rather you get a fair deal now."

"I need to talk to my spouse first"

"Of course — bring them! Honestly the lot is the best place to make that decision together. You walk through the sheds, see the sizes in person, go through the payment options together. What day could you both come by?"

"I'm just not sure what size I need"

"That's exactly why I want you to come walk the lot. Most people pick the wrong size when they're just looking online — once you're standing inside a 10x12 vs a 12x16 it's obvious. Come see them in person and it'll click right away. No obligation at all."

📅 QUICK REFERENCE
