Dog Waste — Tidy Tails

Spring Blitz Playbook launched — 6-week master acquisition plan (Mar 24 → May 4). Week-by-week battle plan, \$300 budget breakdown, channel mix strategy. Goal: 25-30 recurring customers by August.

Week 1 Launch Kit built — Day-by-day execution playbook. Copy-paste posts for 6 platforms (FB, Nextdoor, GBP ×3, Craigslist, IG), review request templates, Jamie call scripts, door hanger copy. Zero-thinking required — open and execute.

GBP Complete Optimization Package — Full copy-paste guide to go from 7% → 95%+ profile completion. 12 sections: business description, categories, 29 service areas, 6 services with pricing, photo checklist, 4 Google Posts, 6 seeded Q&As, review generation strategy. **\$0 cost, ~1 hour of TJ's time. THE multiplier.**

Dead Competitor Capture Kit — Campaign tool targeting 50-100+ orphaned customers from 6 dead/dying competitors. **Dog Doody Defenders confirmed DEAD** (DNS gone) — they were in Florissant, TJ's home turf. 6 copy-paste capture posts, SEO plays, 7-day blitz plan. Potential: 10 captured = \$700/mo.

Scoop Day Marketing Machine — Turns every Monday route into reviews + content + referrals. Per-stop review tracking, photo guides, 7 copy-paste text templates, social post templates from route photos. Makes review-asking a HABIT, not an afterthought.

Full Week Social Content (Mar 24-30) — 9 posts: Facebook (3), Nextdoor (3), Instagram (3). Spring cleanup urgency, neighbor intro, before/after, multi-dog family angle, zip-code specific. All written as Jamie. Ready to post.

Directory & Citation Blitz — 25 directories ranked by priority with direct submit links. **Yelp listing returns 404** — needs re-claim. Copy-paste NAP info, descriptions, categories. Progress tracker built in.

Lead Response System — 30+ copy-paste templates across 7 pipeline stages. Instant response, quote & pricing, 7-touch follow-up cadence, onboarding, retention, referral. Built-in lead tracker with localStorage.

💡 **MARKET CONSOLIDATING FAST:** 4 competitors confirmed dead (DDD, Poopy Paws, Pawfect, Super Scoopers), 2 likely dead (POOP 911, Dirty Dog). Down to ~10-11 from ~15. Window is WIDE

OPEN. Scoop Soldiers IS active in STL but early-stage — race them for territory now.

Sheds — TuffShed/WoodMaster

Full Week Marketplace Ads (Mar 24-30) — 7 FB Marketplace ads + 3 Instagram captions. Hooks: end of Q1 psychology, yard season, "wife conversation" angle, home office, tariff urgency (35.19%), Saturday lot walk, man cave/she shed lifestyle.

No active TuffShed sale — Financing only (9.99% APR, no-credit-check RTO). Push tariff urgency + clearance units.

 **Action:** Post 3-5 Marketplace listings daily. Start with clearance + garages. Use tariff talking point (\$501+ per 1,000 board ft).

Systems & Infrastructure

Website CRO Audit complete — Grade C+. Critical gaps: ZERO analytics (no GA4/FB Pixel), no testimonials, no og:image (social shares blank), only 2 images on entire site, quote form lacks urgency. Fixing top 3 = 2-5x more quote requests = \$300-600/mo.

Scoop Soldiers Deep Battle Card — 7-tab competitive intel: company profile, franchise FDD financials (\$1.1M Houston), STL footprint (early-stage, only 2 suburb pages live), pricing comparison (they're \$10/mo cheaper single-dog but TJ wins multi-dog), 4 battle scripts, action plan.

Dashboard Health Audit — 43 HTML files, 43 linked, 0 broken, 0 orphans. Archived 2 dupes. Index clean.

Competitive Pricing Cheat Sheet — Mobile-friendly pricing comparison card for prospect calls. Head-to-head vs all competitors, 6 battle scripts, TJ's 6 advantages. Phone-pullable.

Cron job fixes — 4 jobs had been failing on Telegram delivery (missing chatId). All fixed and verified. Morning briefing, self-directed tasks, shed ads, and weekly review now delivering properly.

Memory consolidation — Archived Monday's 15-task marathon. Updated MEMORY.md with competitive landscape refresh, asset inventory (45 tools, 145+ deliverables), Mar 23 milestone. Reset task log for Tuesday.

Security: All clear — OpenClaw 2026.3.13 current. 4 CVEs patched. Brave API quota exhausted for month — conserving remaining searches.

Tomorrow's Priorities (Tuesday, March 24)

● **GBP completion — DO THIS FIRST** — Use the optimization package. 1 hour to go from 7% → 95%+. This is THE bottleneck for search visibility. Everything else works harder once GBP is live.

● **Post Spring Blitz content** — Day 1 social posts ready in ready-to-post/. Facebook, Nextdoor, Instagram. Copy-paste, 10 minutes.

● **Jamie starts commercial calls** — Monday Call Sheet has top 10 leads with scripts. Start with Sentry (32+ HOAs) and Millsap (7 properties).

● **Text customers for Google reviews** — Use Scoop Day templates from today's route. Target: 3-5 review requests sent.

● **Post 3-5 shed Marketplace listings** — Ads are written. Start with clearance units + garages.

● **Claim/fix Yelp listing** — Currently returns 404. Use Directory Blitz tool for submission.

● **Add GA4 + FB Pixel to website** — Flying blind without analytics. 15-min fix. Need website repo access.

● **Dead competitor capture posts** — Post to Florissant Nextdoor targeting DDD's orphaned customers. Scripts ready.
