Shed-Mar102 — "Tuesday Tax Check"

FB Marketplace + Groups — Tue 3/10 AM | Hook: Tax refund smart money reframe

Quick question:

Did that refund hit yet?

Most people blow theirs on:

- 🌸 Clothes they'll wear twice
- 🌸 A weekend trip they won't remember
- 🌸 Stuff that's in a landfill by July

Smart play?

Put it toward something that ADDS value to your home.

A shed:

- ✅ Increases property value
- ✅ Solves the garage problem permanently
- ✅ Lasts 20+ years

Even smarter:

Use the refund as your down payment.

Finance the rest at 0% interest (paid in 6 months).

Keep cash in your pocket.

Dozens in stock. FREE delivery.

Shed-Mar103 — "The 30-Second Test"

FB Marketplace + Nextdoor — Tue 3/10 PM | Hook: Interactive garage self-assessment

Take 30 seconds.

Walk to your garage.

Open the door.

Look inside.

Can you:

- ☐ Park your car inside?
- ☐ Find a tool in under a minute?
- ☐ Walk through without turning sideways?
- ☐ See the floor?

If you checked zero...

You don't need to organize.

You need more SPACE.

A shed gives your garage a fresh start.

Without throwing anything away.

Move the overflow → park inside → stress gone.

- ✅ 0% interest if paid in 6 months
- ✅ Rent-to-own (no credit check)
- ✅ FREE delivery & setup

The test takes 30 seconds.

The text takes 10.

Shed-Mar104 — "Daylight Savings Aftermath"

FB Marketplace + Groups — Tue 3/10 evening | Hook: DST callback — lost time vs gained space

So we lost an hour this weekend.

But let's talk about what you COULD gain:

- ✓ 200 extra square feet
- ✓ Your garage back
- ✓ A workshop that's actually usable
- ✓ Somewhere for all that "I might need it" stuff

Spring forward into actually having space.

Right now:

- ✓ Delivery slots still open
- ✓ Full inventory on the lot
- ✓ 0% if paid in 6 months

March is filling up fast.

Spring rush = longer wait times.

Don't lose another weekend thinking about it.

Urgency

Shed-Mar105 — "The Real Man Cave"

FB Marketplace + Instagram — Wed 3/11 AM | Hook: Shed > finished basement for man caves

Man cave doesn't have to mean finished basement.

Actually? A shed is better.

- 🔊 No one hears you watching the game at full volume
- 🍺 Fridge stays stocked (no sharing)
- 🔧 Tools on the wall, not hidden in a drawer
- 🎮 YOUR remote. YOUR rules. YOUR space.

And the best part?

It's separate from the house.

Which means nobody's interrupting.

Nobody's "just real quick" borrowing your space.

A backyard man cave:

- ✅ Cheaper than finishing a basement
- ✅ Faster than an addition
- ✅ Actually YOURS

Custom sizes. Financing available.

FREE delivery to your yard.

Build the cave.
