Target: 15 by Apr 24

GOAL PROGRESS — 25 CUSTOMERS BY AUGUST

10/25 — 40% there · Need 15 more in ~4 months

🌸 **SEASONAL CONTENT DEADLINE: Mother's Day (May 10) → Blog/Content Brief Due April 25**

That's 22 days from today. Doeboy needs the brief by Apr 25 to publish on time. Content should frame Mother's Day around "give mom the gift of a clean yard" or "treat yourself." Franklin can draft the brief today — just say the word.

 DOG WASTE — Tidy Tails

PRIORITY TASKS — DO THESE TODAY

- 1 Text current customers — upsell deodorizing + ask for reviews.** You have 10 customers and only 6 reviews. The Revenue Maximizer Kit (deliverables/customer-revenue-maximizer-kit.md) has 6 copy-paste texts. 20 minutes tonight = \$135+/mo and 3+ more reviews. Do this.
- 2 Commercial calling — 0 calls made despite 107 leads in the pipeline.** The Hot 10 Playbook is at deliverables/hot-10-commercial-call-playbook.md. Three calls to Millsap (314-686-3337), Renewal Heights (314-699-9923), and Associa Smith (314-394-4200) could add \$1,100–\$3,500/mo. This is the highest-leverage activity available.
- 3 Bark in the Park (May 16) — email bark@hsmo.org for vendor booth.** 31st annual Purina event, 5,000–10,000 attendees. Projected 4–12 new customers from ONE event. If no response by Apr 5, call 314-951-1565. This window is closing.
- 4 April content — start posting Monday April 7.** 16 social posts ready in deliverables/april-2026-social-media-pack.md. Copy-paste, 3 min each. GBP posts in deliverables/april-may-gbp-post-calendar-2026.md. Post consistently = better Maps ranking.
- 5 Arch Bark (April 18) — register on Eventbrite.** Gateway Arch, 10 AM–2 PM. Bring dog, cards, and spring flyers. Goal: 30 cards out, 10 phone numbers. Low effort, good exposure. Register: eventbrite.com link in TASKS.md.

6 **Gmail alias (jamie@tidytailssstl.com).** 26 commercial leads have emails. Blast is ready. Waiting on your approval to set up alias and send. Franklin can execute same day you give the go-ahead.

PIPELINE STATUS

10 RECURRING	107 COMMERCIAL LEADS	0 CALLS MADE	15 NEEDED FOR GOAL
-----------------	-------------------------	-----------------	-----------------------

⚠️ **Activation Stall.** You have a commercial calling hub, 107 leads with phone numbers, email blast kit with 26 addresses, and door hanger kit — all ready to go. 0 sends. 0 calls. The tools don't work if no one picks them up. Even 3 commercial calls this week dramatically changes trajectory.

🔥 TOP 3 COMMERCIAL CALLS THIS WEEK

🏆 #1 PRIORITY Millsap Properties 📞 (314) 686-3337 7 pet-friendly apartments in YOUR exact service area — Florissant, Hazelwood, St. Charles. One call could be \$500–\$1,500/mo.	🏆 #2 PRIORITY Renewal Heights Apts 📞 (314) 699-9923 411 units + dedicated dog park in Ferguson. Right down the road. Could be \$300–\$500/mo. Ask for property manager.
QUICK WIN Cross Keys Animal Clinic 📞 (314) 837-4617 Walk in with 25 cards. Florissant Hwy 67. 5 minutes. Referral partner — their clients are your clients.	BIG WHALE 🐳 Associa Smith Management 📞 (314) 394-4200 Largest HOA mgmt company in STL. Manages dozens of communities. One yes = \$300–\$2,000/mo ongoing.

UPCOMING EVENTS

DATE	EVENT	ACTION NEEDED	PRIORITY
Apr 4	Treats Unleashed Egg Hunt (Ladue)	Stop by with cards, referral partner play	MEDIUM
Apr 18	Arch Bark — Gateway Arch NP	REGISTER on Eventbrite NOW	HIGH
May 16	Bark in the Park (Purina) — 5,000+ attend	Email bark@hsmo.org for booth	🔥 CRITICAL

🏠 SHEDS — TuffShed / WoodMaster

TODAY'S FOCUS

- 1 **Post today's Marketplace ad.** April 3 is a Thursday — perfect day for a posting. Use the "tax refund season" or "Easter weekend prep" angle from deliverables/shed-marketplace-ads-mar31-apr6.md. 5 minutes, no cost.
- 2 **Follow up on aged quoted leads.** Pipeline data is 6+ weeks old (last updated Feb 16). Anyone you quoted in Feb is either ready to buy or went cold. 10-minute check-in calls this week — use "spring is here, pricing may change, getting in before tariff impacts" angle.
- 3 **Tariff urgency play — use it now.** With tariff news in the market, customers are worried about price increases on building materials. Use this as a call-to-action: "Buy now before materials cost more." This is a legitimate, timely hook.

CURRENT TUFFSHED PROMOS (FROM TUFFSHED.COM)

Financing & Leasing Options Available:

- **Service Finance:** As low as 9.99% APR for 120 months · No interest if paid in full within 6 months · Loans up to \$100K · 10% down required
- **RTO National:** Variable APR as low as 9.99% for up to 60 months · No credit check (Flex Lease) on select models · Up to \$20K · Low deposit

No spring promo or limited-time discount found — financing is the main offer. Use the "build now before tariffs raise prices" angle as your urgency hook instead.

PIPELINE (ASK TJ TO UPDATE)

PENDING ITEMS

- ! **Gateway Restart:** OpenClaw updated to 2026.4.2 overnight. Security patch not active until restarted. Run: `openclaw gateway restart`
- ! **Gmail Alias Setup:** jamie@tidytailsstl.com → agentfranklin74@gmail.com needed for commercial email blast. 26 emails ready to send.
- ⚠ **GA4 Install:** 15 minutes, \$0. Must have this before any paid ad spend. Without it, you're flying blind on what's driving leads.

💡 NEWS & IDEAS

📰 TODAY'S STORY

Tariffs Hit Building Materials — Shed Dealers See Surge in "Buy Now" Demand

With new tariff policies taking effect in April 2026, lumber and steel prices are trending upward, and consumers are moving faster on outdoor storage purchases. TuffShed dealers nationwide are reporting a surge in urgency-driven inquiries from customers who want to lock in pricing before costs increase further. For TJ, this is a genuine, timely hook for every Marketplace ad and follow-up call this month: "Buy now before tariffs push prices higher." It's not manipulation — it's market reality, and buyers who've been sitting on quotes need a reason to move.

💡 TWO BUSINESS IDEAS FOR TJ

1

Yard Services Bundle — "The Full Yard" Package

Bundle Tidy Tails with a light yard cleanup service (leaf blowing, debris removal) for a premium monthly package at \$99–\$129/mo vs. the current \$45–\$75/mo base rate. Dog waste is the hook, but once you're in the yard, a 10-minute debris cleanup upsell is natural. This doesn't require hiring — TJ or Jamie can do it on existing routes. Projected

impact: 30% of current customers upgrade = +\$150-\$250/mo overnight with zero new customers acquired. Test it as a "Spring Yard Reset" for April.

2

Pet Owner Welcome Package — New Homebuyer Partnership

Partner with 2–3 local real estate agents to include a Tidy Tails "First Month Free" card in every homebuyer closing packet in St. Louis County. Realtors close dozens of homes per month — each new homebuyer with a dog is a warm lead. Cost: \$0 (just cards and one sales call). Pitch to agents: "It's a memorable closing gift for dog owners and it makes you look thoughtful." One active realtor partner could generate 3–8 warm leads per month indefinitely.

4 TASKS FRANKLIN COULD HANDLE (NOT CURRENTLY DOING)

Send the commercial email blast

26 emails enriched, email copy drafted, kit ready. Once you confirm the Gmail alias, Franklin fires the whole batch in one shot. Currently: sitting at \$0 sends for 2+ days.

Draft the Mother's Day content brief for Doeboy

Deadline is April 25. Franklin can write the full content brief today — themes, keywords, angles, blog structure. Zero time from you. Just review and send.

Build a weekly "velocity dashboard" for the customer pipeline

Track how many leads came in, how many converted, and at what rate — week over week. Right now there's no tracking. Franklin can build a simple Google Sheet template and populate it from the data already in leads-commercial.md.

Map the commercial lead clusters for efficient routing

107 leads are in the database but there's no route plan. Franklin can group them by zip code and proximity to create a calling AND visiting sequence that saves TJ and Jamie time on windshield miles. This has never been done.

AI & SECURITY SCAN

OPENCLAW VERSION STATUS

2026.4.2

INSTALLED (D74A122)

PENDING

GATEWAY RESTART REQUIRED

2026.3.11+

MINIMUM SECURE VERSION

ACTION REQUIRED: OpenClaw 2026.4.2 was installed overnight (patched from 2026.4.1). The security fix is on disk but **the running gateway is still the old version** until restarted. Run `openclaw gateway restart` to activate. This takes ~30 seconds and fixes a CVSS 9.9 vulnerability.

CVE THREAT LANDSCAPE — PAST 30 DAYS

CVE-2026-32922 CVSS 9.9 — Critical	Critical Privilege Escalation in OpenClaw. Flaw in <code>device.token.rotate</code> — a caller with limited <code>operator.pairing</code> scope can obtain a fully privileged <code>operator.admin</code> token, enabling remote code execution on all connected nodes. Published March 29, 2026.	PATCHED ✓ Fixed in 2026.3.11
CVE-2026-25253 CVSS 8.8 — High	"ClawJacked" — WebSocket Hijacking. Any website could steal your authentication token and run arbitrary code through OpenClaw via cross-site WebSocket hijacking. Disclosed by security researcher Mav Levin. Enables full agent takeover without plugins or user interaction.	PATCHED ✓ Fixed in 2026.2.25
CVE-2026-32982 CVSS Medium	Telegram Token Exposure. Versions before 2026.3.13 expose Telegram bot tokens in error messages via the <code>fetchRemoteMedia</code> function (information disclosure).	PATCHED ✓ Fixed in 2026.3.13
CVE Flood 9 CVEs / 4 Days	March 18–21 Vulnerability Flood. 9 CVEs published in 4 days for OpenClaw 2026.3.x series. One scored 9.9, six were high severity, two medium, one critical. Mass disclosure event — coordinated researcher findings.	PATCHED ✓ On 2026.4.x
ClawHub Supply Chain	ClawHub Marketplace Attack. 1,000+ malicious community skills found in the ClawHub marketplace. Skills could execute arbitrary code on the host machine when loaded. Install only trusted, locally-developed skills.	NOT AFFECTED We use only in-house skills

REQUIRED ACTIONS

- 1 RESTART GATEWAY NOW.** Run `openclaw gateway restart`. Takes 30 seconds. Activates all security patches in 2026.4.2. CVE-2026-32922 (CVSS 9.9) is not mitigated until this is done.
- 2 Never install skills from ClawHub.** All 1,000+ malicious skills are in the public marketplace. Our workspace uses only custom in-house skills — keep it that way. Never install unknown community skills.
- 3 Keep auto-updates enabled.** The overnight cron caught and applied 2026.4.2 automatically. This protection only works if auto-update stays on.

Overall Assessment: Secure — pending gateway restart. All known CVEs are patched. No zero-days targeting our specific setup detected. Supply chain attack doesn't affect us. One action needed: restart the gateway to activate 2026.4.2.
