📅 Priority Tasks — Monday March 23

- ❑ **Ask every customer for a Google review** while on-site — 0 reviews is the #1 blocker. Direct link: g.page/r/Ce_hqIHanGLvEAE/review
- ❑ **Take 3+ photos at each stop** — before/after yard shots for GBP, social, and website. Dog tax bonus.
- ❑ **Mention referral: "\$10 off your next month"** for any friend who signs up (scripts in dashboard)
- ❑ **Jamie: Call top 3 from Monday Call Sheet** — Sentry Mgmt (Danette Dietz, 32+ HOAs), Millsap Property, Associa. Sheet on dashboard.
- ❑ **Saturday: Adoption Paw-ty** at Hometown Vet (9575 Watson Rd) — 5 days away, print 50+ business cards by then

Competitive Intel Update

- **Market CONSOLIDATING** — 5-7 fewer active competitors than 3 weeks ago
- **DEAD** Pawfect, Poopy Paws, Super Scoopers — their customers need a home

Website & Online Status

- **GBP 7%** — Still barely set up. 20 min to get to 80%+ (wizard on dashboard)
-  4 l-44 pages missing from sitemap + have generic titles (need website repo access)
-  og:image still missing — social shares show no preview

NEWS & IDEAS

Today's News — Pet Industry Consolidation Accelerating

The pet waste removal industry continues consolidating in metro areas nationwide. Multiple franchise operators are pulling back from secondary markets while focusing on core territories — exactly what we're seeing in STL with POOP 911's broken pages and Scoop Soldiers' "don't service your area" message. Small independent operators who move fast on reviews, GBP, and local presence are winning abandoned territories. **This is TJ's window.**

Business Idea #1 — Pet Waste Station Installation & Maintenance

Install and maintain dog waste stations at apartment complexes, HOAs, and dog parks. \$150-300 per station installation + \$50-75/month servicing contract. Scoop Soldiers already offers this — TJ could add it as a natural upsell from existing commercial outreach. 49 commercial leads already in the pipeline. Zero competition locally for installation + service combo.

Business Idea #2 — "AI-Powered Marketing Setup Day" for Local Services

Package everything Franklin does (dashboard, CRM, ad copy, competitor intel, email automation) as a one-day setup for other small service businesses in STL. Charge \$500-2,000/day. TJ knows the pain of marketing as a solo operator — other landscapers, cleaners, and mobile mechanics have the same problem. This feeds the ultimate \$300K/month agency vision.

4 Tasks Franklin Could Handle Today

- ❑ **Submit to 5 free directories** (Angi, Thumbtack, Apple Maps, BBB, HomeAdvisor) — citation tracker ready, just needs TJ's login for some
- ❑ **Draft Adoption Paw-ty social posts** — event is Saturday, need 3-4 pre-event posts to build hype on FB + IG
- ❑ **Build a "spring cleaning" email drip** for existing customers — upsell deep clean add-on (\$100 one-time) while you're already there Monday
- ❑ **Create dead-competitor Facebook reply templates** — monitor FB groups for anyone asking about Super Scoopers, Poopy Paws, POOP 911 and auto-suggest TJ

AI & SECURITY SCAN

✅ ALL CLEAR — No Critical Threats

OpenClaw 2026.3.13 (61d171a) — latest version, no update available.

Security Summary

- **CURRENT** OpenClaw 2026.3.13 — latest release, no newer version detected
- **PATCHED** All 4 known CVEs (CVE-2026-25253, -32049, -31998, -32016) patched in current version

Next full scan will occur when API quota resets. Overnight scan (3 AM) also hit this limit. **Recommend upgrading Brave API plan or adding backup search provider.**
