Real Document Solutions	Document workflow SaaS platform	Enterprise SaaS

 What Types of Businesses Win?

Industry Breakdown (2024)

Healthcare/MedTech/BioTech	30%
SaaS/Platforms	25%
AI/Robotics	15%
Consumer Products	15%
EdTech	10%
Construction/AgTech	5%

What Judges Look For

- ✓ Innovative business model
- ✓ Scalability potential
- ✓ Job creation in St. Louis
- ✓ Strong "Why STL" story
- ✓ Diverse/underrepresented founders
- ✓ Clear growth trajectory

 **Key Insight:** "80%+ of the 2024 cohort led by underrepresented founders" — Gabe Angieri, Executive Director. The 2024 cohort also had more local STL founders than any previous year (13 of 20).

 MOTRA Competitive Assessment

Strengths (What Works For You)

Factor	MOTRA's Position	Score
Innovation	Blue ocean — NO competitors in AV fleet servicing	★★★★★
Scalability	Platform/marketplace model (like Roam, Raknida)	★★★★★
Job Creation	Gig workers = immediate local STL jobs	★★★★★
Founder Diversity	Both Black founders from St. Louis	★★★★★
Local Roots	BOTH founders from STL, committed to building here	★★★★★
Market Timing	AV industry scaling NOW (Waymo 400K rides/week)	★★★★★
Business Model	Clear revenue model (15-20% transaction fees)	★★★★★

Challenges (What to Address)

Challenge	Reality	Mitigation
No MVP	Pre-product stage	Grant funds the build — that's the point
Pre-revenue	\$0 to date	Many winners were pre-revenue (Avol, Prezerv)
AV market not in STL	Waymo is SF/Phoenix	Build here, deploy nationally — software doesn't care where you code
Research-based validation	No customer contracts yet	Cite Waymo's Transdev outsourcing as proof the model works

65-75%

Likelihood of Winning IF You Make Finals

Why You're a Strong Fit:

- ✓ Platform/marketplace model — like Raknida, Roam, MatchNP (all 2024 winners)
- ✓ Transportation/logistics sector — like Avol (2024 winner)
- ✓ Both founders Black + from STL — exactly what they prioritize
- ✓ Clear job creation story — every gig worker = a STL job
- ✓ Blue ocean innovation — no one else is doing this

💡 Recommendations to Maximize Chances

1. **Lean HARD into the STL story** — "We're not here for a grant, we're building our hometown's future"
2. **Emphasize job creation** — Every gig worker recruited = a job in St. Louis
3. **Reference comparable winners:** "Like Raknida is Netflix for art, MOTRA is Uber for AV maintenance"
4. **Get strong recommendation** — Someone in STL startup community
5. **Prep for Pitch Day (Aug 5)** — You're local = no travel cost, have Adonis there (Boeing cred)

The Key Question Judges Will Ask: "Why will Waymo/Cruise work with a St. Louis startup?"

Your Answer: "They already outsource to Transdev. We're building the platform to do it at scale. And we're building it from St. Louis because that's home."
