-  **Dashboard audit** — 0 broken links across 48+ HTML files
-  **All 10 crons healthy** (9 confirmed + EOD testing tonight)

🔗 **Telegram HQ setup** — 6 topics, bot admin, requireMention:false, all working

🎨 **Fake iMessage generator** — Built pixel-perfect iOS screenshot tool (7 iterations)

⚠️ **Brave API quota exhausted** — \$5/mo upgrade needed for 5000 queries

🎯 **TOMORROW'S TOP 3 PRIORITIES**

1. GBP COMPLETION — TJ needs to finish the guide tonight or tomorrow AM. Going from 7% → 100% is the single highest-ROI action. With 6 reviews at 5.0★, a complete profile = Map Pack visibility. Every other tool we build is wasted if people can't find Tidy Tails on Google.

2. DDD RESCUE — LAUNCH FIRST POSTS — The Nextdoor + Facebook posts are written and ready. 15 minutes to post the first two. 15-30 orphaned customers in Florissant need a replacement NOW. Every day = competitors picking them off.

3. FIRST 3 COMMERCIAL CALLS — 61 leads with \$0 revenue. The outreach kit has tap-to-call buttons and scripts. Just 3 calls, 15 minutes. Break the ice. The pipeline is worth \$11K-\$28K/month but means nothing until someone picks up the phone.
